Nuova Fima SpA is the principal Italian manufacturer of industrial pressure and temperature measuring instrumentation.

Production research and innovation have always represented one of the key factors in the success of Nuova Fima, right from the very beginning, and they will continue to do so in the future. Every years, huge amounts of resources are allocated to testing new products, new materials and to improving the production process.

GNN Vietnam is Authorized Distributor and distribute Nouva Fima Product Brand in Vietnam Market.

We offer a wide range of products, designed for use in the most diverse industrial applications, ranging from petrochemicals to the foodstuffs and health sectors, hydraulics and the production and transmission of electricity, water treatment and the production and distribution of gas.
